

3/2- and 4/2-multi-way valves ; servo-assisted;
block assembly or NAMUR flange; DN 4; flow rate: 300 l/min

Advantages / Benefits

- ▶ II 2G EEx ia IIC T6 PTB01 ATEX 2175 approved
- ▶ Available for block assembly and with NAMUR flange
- ▶ High flow rate at compact design
- ▶ Maintenance-free and no wear due to high level dry run properties
- ▶ With manual override
- ▶ Various options for the service ports 2 and 4
- ▶ High switch reliability
- ▶ Block assembly version fieldbus compatible
- ▶ Low weight

Design/Function

Type 5470 EExi includes high switch reliable diaphragm seat valves as 3/2- and 4/2-way version. The valve consists of three modules, valve body with servo-diaphragm, plungers and seat seals as well as numerous connection possibilities for the service ports 2 and 4.

The body and valve internal parts are made of high quality thermoplastic, the return spring is made of stainless steel.

A 16 mm rocker solenoid valve type 6106 with rectifier and an EExi coil is used as pilot.

Tag connectors are used as electrical contact (acc. to DIN 43 650 Form C) with cable plug type 2506.

The extendable type 5470 EExi can be used for block modules or for entire valve blocks (tag connectors on top, coil spacing 19 mm).

The block assembly is made with pneumatic modules type MP05 through integrated lock technology and screwing.

Type 5470 NAMUR EExi can be easily mounted to a process valve with the same interface.

Applications

Applications:

- Chemical industry
- Pharmaceutical processing equipment
- Industrial waster water treatment
- Oil and gas industry

burkert
Fluid Control Systems

Technical Data Type 5470 NAMUR Ex-Version

Circuit functions

C 3/2-way valve,
when de-energized,
outlet port exhausted

G 4/2-way valve,
when de-energized,
pressure inlet port 1 connected
to outlet port 2,
outlet port 4 exhausted

Specifications

Circuit function	Orifice [mm]	Flow rate ¹⁾ QNn-Value (air) [l/min]	Pressure range ²⁾ [bar]	Power consump. [W]	Response times		Port connections
					opening ³⁾ [ms]	closing ³⁾ [ms]	
C (3/2)	4.0	300	2 – 8	0.5	60	50	Supply port 1 & 3: plug-in coupling ø 6 mm in front or downwards Service port 2 & 4: sub-base or NAMUR flange
G (4/2)	4.0	300	2 – 8	0.5	60	50	Supply port 1 & 3: plug-in coupling ø 6 mm or threaded port G 1/8 Service port 2 & 4: sub-base or NAMUR flange

¹⁾ Measured with 6 bar upstream pressure and 1 bar pressure drop across the valve and at +20 °C.

²⁾ All pressures quoted are gauge pressures with respect to the prevailing atmospheric pressure.

³⁾ Measured at connection 2; time from electrical switching to pressure increase to 90 % (opening) or pressure drop to 10 % (closing) of operational pressure of 6 bar.

Valve Specifications

Valve body	PA (Polyamide)
Valve internal parts	Ultramid
Return spring	Stainless steel
Seal material	NBR
Fluids	Lubricated, unlubricated compressed air, nitrogen, instrument air
Media temperature	-10 up to +50 °C
Ambient temperature	-10 up to +55 °C
Port connections	
NAMUR version:	
Connection 2 and 4	• NAMUR flange
Connection 1 and 3	• Plug-in coupling ø 6 mm • G 1/8 (variation)
Block assembly version:	
Connection 1 and 3	• Sub-base at the back
Connection 2 and 4	• G 1/8 in front • Plug-in coupling ø 6 mm below or in front • Screwed tube connector SL 6/4 mm, in front

Solenoid Specifications

U_i	35 V
I_i	0.9 A
P_i	see manual
I_{min}	29 mA
$R_{i20°C}$	320 Ω
Duty cycle	100% continuously rated
Electr. connection	Tag connectors acc. to DIN 43650 Form C, for cable plug type 2506 (do not use connectors with LED or circuitry)
Rating	IP 65 (with cable plug)
Type of protection	II 2G EEx ia IIC T6 PTB01 ATEX 2175

Electrical Specifications

See data sheet „Recommended Barriers“

Installation

Mounting position: Any, preferably solenoid system upright

Block and Wall Mounting with Pneumatic Modules Type MP05 [mm]

Ex-Version

Block Assembly with Pneumatic Modules Type MP05, Coil Spacing 19 mm

Connector module
- left -

Basic module
- 3 valve space -

Interface module: Supply ports pushed through
for additional pressure supply
or

Connector module: Supply ports closed;
- right - thereby various operating pressures in
one block possible

Basic module Connector module
- 2 valve space - - right -

Supply ports
3(R), 1(P)

Example of a valve block. Single modules or pre-mounted blocks are available.
When ordering, please inform on the individual modules and the desired
configuration from right to left.

For information on assembly of a valve block, please see data sheet Customized
Pneumatic Systems Solutions.

Ordering Chart Valves Type 5470 NAMUR (Other Versions on Request)

Scope of delivery: All valves with manual override and with NBR seal; tag connectors on top acc. to DIN 43 650 C;
without cable plug (see accessories)

Block assembly versions

Circuit function	Orifice [mm]	Flow rate QNn-Value (air) [l/min]	Supply port connection 1 and 3	Service port connection 2 and 4	Pressure range [bar]	Item-No.
